

**The IEEE San Fernando Valley Section
Professional Activities Committees for Engineers (PACE)
Welcome you to the presentation on:
*The Nuts and Bolts of Product Liability Litigation***

By Mr. Marshall Matthew

Description

This presentation will discuss the basics of what you need to know regarding product liability lawsuits brought against your companies. It will discuss common product identification and tracing issues, documentation and verification issues, and potential pitfalls in discovery and depositions.

Speakers Bio

The primary focus of **Mr. Marshall's** practice is in the area of product liability, with an emphasis in pharmaceutical and medical device litigation. Matt has served as both national and local counsel in nationwide mass tort drug & device litigation. Matt's drug and device cases have involved contact lens care solutions, infusion pumps, dietary supplements, quinine, neurostimulators, cochlear implants, lasers & IPL devices, cold therapy devices, intraoperative warming devices, surgical mesh, hydrotherm & RF ablation devices, respirators, angioplasty devices, orthopedic implants, stents, retrieval systems, cardiac pumps, microcatheters, PPA, latex gloves, wheelchairs and centrifuges. Matt also defends manufacturers, component part suppliers, and bulk material suppliers in cases involving commercial products, including appliances, food products, household products and exercise equipment. Matt has successfully defended numerous claims involving death as well as serious injuries including stroke, neurological deficits & paralysis, respiratory failure, SJS, burns, organ damage & failure, amputation, RSD, blindness, and serious disc injury.

By Ms. Marilyn Muir Jager

Marilyn Muir Jager is a partner resident in the Los Angeles office. She is a member of the products liability, professional liability and commercial law practice groups. Ms. Jager is extensively involved in the area of product liability, with an emphasis on medical device litigation. Ms. Jager has represented manufacturers in Multi-District litigation and in state coordinated proceedings throughout the United States. Ms. Jager has also been involved in the representation of architects, engineers and other construction professionals. Ms. Jager represents a variety of clients in all aspects of litigation including claims of defective product design, professional negligence, complex torts, business and insurance related matters. Her practice includes risk management and counseling, as well as litigation of complex lawsuits through trial. Ms. Jager lectures to a variety of clients including those in the medical device, insurance, construction, and design profession industries. Ms. Jager has successfully defended the interests of both private and public entities in product liability claims, tort liability claims, contract claims, and professional liability claims.
